

A'ANG KURNIA, S.T.

CIVIL ENGINEER | CIVIL & STRUCTURAL SITE SUPERVISION | EPC PROJECT SUPPORT

South Jakarta, Indonesia +62 852-8108-0925 goankproject027@gmail.com

PROFESSIONAL SUMMARY

Civil Engineering graduate from Gunadarma University (GPA 3.33/4.00), with field experience supporting civil and structural construction activities, site supervision, quality inspection, drawing compliance, material and quantity verification, and progress reporting. Familiar with shop drawings, method statements, BOQ/RAB review, technical documentation, and OHS/K3 requirements. Proficient in AutoCAD and Microsoft Office, with a practical, safety-conscious approach to coordination and site problem-solving. Seeking to contribute these transferable skills to civil and structural work packages in an EPC project environment.

CORE COMPETENCIES

- Civil and structural site supervision
- Method statement familiarity
- Quality inspection and defect identification
- Cost estimation and procurement coordination
- AutoCAD / technical drafting / DED
- Shop drawing review and execution checks
- Material and quantity verification / BOQ-RAB
- Site progress and photographic reporting
- OHS/K3 compliance and field safety
- Microsoft Office / Microsoft Project

PROFESSIONAL EXPERIENCE

Site Supervisor (Project-Based)

2024 – 2025

Freelance Construction Services | South Jakarta

- Supervised stamp-concrete execution for the Lavande Apartment lobby, monitored material-mix quality, and enforced OHS/K3 controls in a high-traffic public area.
- Led site-team operations for the Permata Hijau jogging track; prepared cost estimates, coordinated equipment and material procurement, and monitored project timelines.
- Prepared daily, weekly, and monthly progress reports and maintained project documentation.

Field Inspector (Project Contract)

2024 | 3 months

PT Duta Cipta Consultindo | East & South Jakarta

- Inspected site execution against approved shop drawings for renovation work.
- Verified material quality and specification compliance against BOQ/RAB documents for a sanitation renovation project.
- Compiled periodic progress reports and photographic evidence for management and client reporting.

Surveyor & Drafter (Project Contract)

2023 | 7 months

PT Tri Bina Buana | Central Jakarta

- Surveyed and identified proposed installation locations for septic tank and WWTP/IPAL sanitation infrastructure in residential areas.
- Produced shop drawings and Detail Engineering Design (DED) using AutoCAD; explained technical implementation to local communities.

Quality Control Engineer (Internship)

2021 | 3 months

PT Arkindo – PT Galatama, KSO | Depok

- Performed quality inspections on the UPNVJ Faculty of Medicine building project and identified structural defects before subsequent construction phases.
- Verified incoming construction material specifications, quality, and quantity; prepared quality inspection reports and technical site documentation.

Field Delivery Partner**2024 – Present**

PT Shopee International Indonesia | Greater Jakarta Area

- Plan daily routes, meet operational targets, and work reliably in dynamic outdoor conditions.
- Follow road-safety standards and operating procedures; resolve customer and field issues professionally.

EDUCATION

Gunadarma University | Bachelor of Engineering (S.T.), Civil Engineering**2018 – 2023**

Transportation Engineering concentration | GPA 3.33/4.00

CERTIFICATIONS & TRAINING

- Basic AutoCAD Training (2023)
- Drainage Network Training (2021)
- OHS & Field Survey Training (2019–2020)
- Planning a Drainage Network System
- Analysis of Planning Area
- Network Survey and Field Investigation
- Communication at Work and Preparatory Work
- Detail Design of the Drainage Network
- Managing Projects with Microsoft Project
- Prakerja Certificate

Certificate documents are available in the portfolio's sertifikat folder.
