- Site leadership and field problem-solving
- Adaptive communication and time management

SOFTWARE

- AutoCAD
- Microsoft Office
- Microsoft Project
- DED / Technical Drafting

PROFILE

Civil Engineering graduate from Gunadarma University (GPA 3.33/4.00), with field experience in civil and structural site supervision, quality inspection, drawing compliance, material and quantity verification, and project reporting. Familiar with shop drawings, method statements, BOQ/RAB review, AutoCAD drafting, and OHS/K3 requirements. Brings a practical, safety-conscious approach to coordination and site problem-solving, with transferable skills for EPC civil and structural work packages.

EDUCATION

Gunadarma University / Bachelor of Engineering (S.T.), Civil Engineering

2018 – 2023

Transportation Engineering concentration / GPA 3.33 out of 4.00

EXPERIENCE

Site Supervisor / Project-Based

2024 – 2025

Freelance Construction Services / South Jakarta

- Supervised stamp-concrete work at the Lavande Apartment lobby, checked material-mix quality, and enforced OHS/K3 controls in a high-traffic public area.
- Led Permata Hijau jogging-track site operations, prepared cost estimates, coordinated equipment and material procurement, and monitored timelines.
- Prepared daily, weekly, and monthly progress reports and maintained project documentation.

Field Inspector / Project Contract

2024 / 3 months

PT Duta Cipta Consultindo / East & South Jakarta

- Inspected site execution against approved shop drawings and verified material quality and specification compliance against BOQ/RAB for sanitation renovation work.
- Compiled periodic progress reports and photographic evidence for management and client reporting.

Surveyor & Drafter / Project Contract

2023 / 7 months

PT Tri Bina Buana / Central Jakarta

- Surveyed proposed septic tank and WWTP/IPAL installation points in residential areas.
- Produced shop drawings and Detail Engineering Design (DED) using AutoCAD and communicated implementation plans to local communities.

Quality Control Engineer / Internship

2021 / 3 months

PT Arkindo – PT Galatama, KSO / Depok

- Inspected the UPNVJ Faculty of Medicine building project, identifying structural defects before subsequent construction phases.
- Verified incoming material specifications, quality, and quantity; prepared inspection reports and technical site documentation.

Field Delivery Partner / Additional Field Experience

2024 – Present

PT Shopee International Indonesia / Greater Jakarta Area

- Plan efficient daily routes, meet operational targets, and work reliably in changing outdoor conditions.
- Follow road-safety standards and operating procedures; resolve field issues with professional customer communication.
